

Legal issues for a Sustainable agrifood chain UNIVERSITY OF BARI 15-17 May 2024

CALL FOR ABSTRACTS

The Food Law Academic Network (FLAN) has been established with the goal to foster the debate on Food law issues.

The second “Food Law Academic Network Conference” will be held in Italy, on 15-17 May 2024 at the University of Bari, on the topic:

“Legal issues for a Sustainable agrifood chain”

Around this theme, we aim to explore the policy dynamics and the relationship between the actors involved in the agrifood chains as players implementing the different aspects of sustainability; analyse key issues related to the “sustainable food system” defined as a comprehensive concept by the EU Commission; identify legal models, best practices and case studies related to sustainability issues; finally, present a perspective of policy and legal schemes aimed at identifying a sustainability paradigm for this sector.

The Opening session of the Conference (15th May 2024) initiates the discussion about the definition of a legal concept of sustainability in the light of the “food system” as outlined by the Farm to Fork document as well as the possible outcomes of the Sustainability Regulative Framework in the European Union.

On 16th May Parallel sessions will be held on 3 sub-topics of the conference.

During the final session (17th May) the result of the discussion of each session will be presented. A final document will be drafted and presented as the result of the FLAN conference.

This call for abstracts invites researchers and practitioners to submit work (scientific papers on legal issues, presentation of case studies and best practices) related, but not restricted, to:

1) ENVIRONMENTAL ISSUES AND CLIMATE CHANGE: IMPACTS ON THE AGRIFOOD SECTOR

What are the effects of climate change on legislative policies and what perspectives and implications could have on sanitary and phytosanitary measures?

How do environmental and climate issues affect competition law and food quality recognition in the agrifood sector?

What is the relevance of the “One Health Approach” in environmental policies?

Environment vs. agrifood production –could this old-age dilemma be revised in light of the sustainability paradigm?

What impact could the EU Soil Monitoring Law have on agro-environmental issues?

2) CONTROVERSIES IN CIRCULAR ECONOMY: THE ROLE OF FARMERS, BUSINESS AND CONSUMERS

Food loss and waste: is there a coherent and harmonised approach or a fragmentation of actions? How should we include Developing Countries' economies in EU strategies for implementing a Circular economy? What are the effects on global market?

What are the new perspectives on circular economy in national and EU policy approaches and what about their implementation in contractual schemes?

Consumers response to circular economy: what are the legal tools for a sustainable nutrition education?

3) WORKERS AND HUMAN RIGHTS CONCERNS IN THE FOOD SUPPLY CHAIN: PROCESSING, TRADE AND CONSUMERS PERCEPTION

In light of the overarching goals of sustainability, how is the role of the European Social Pillar expected to evolve and increase in importance? In particular, what impact will the implementation of social pillar measures have on the EU agri-food sector? And what impact does this have in relation to gender equality?

To what extent the concept of "just transition" is deemed relevant in establishing a sustainable agrifood system?

What is the role of Trade unions?

Due diligence rules in the European Union: What are the future scenarios for EU business, environment and workers? What are the effects on the global market? What about the opinion of Southern countries?

SUBMISSION INFORMATION:

Researchers and practitioners interested in participating are invited to submit their abstracts (300-400 words) by email with the title "SUSTAINABLE AGRIFOOD CHAIN" to: agrifood.law@uniba.it and irene.canfora@uniba.it

Submissions should include the researcher's full name, affiliation, and contact details.

Early career researchers (< 7 years post-PhD defence) and PhD students are strongly encouraged to apply. A number of presentation slots are reserved for these groups of researchers in each session.

The deadline for submission of the abstracts is 15th March 2024. Notification of acceptance will be sent by 30th March.

Registration to conference deadline: 30th April

The registration fee is € 60.00. However, for early career researchers and PhD students, the fee is reduced to € 50.00. Registration includes access to all sessions, all conference materials, and the use of services available during the event. Limited financial support in the form of fee waivers is available. For any questions, feel free to contact Prof. Irene Canfora via irene.canfora@uniba.it.
